

At Adeslas our commitment to quality enables us to offer you the care, cover and resources of the **number 1 in Health Insurance**.

## New for 2020

We continue to make progress in the area of prevention, early detection and the best treatments for our policyholders. That is why **in 2020 we are introducing the capsule endoscopy, endovascular stents and the breast cancer genomic platforms, Mammaprint and Oncotype**, to your policy as high-precision, minimally intrusive diagnostic tools.

## Seeking to stand out in what's really important.

We want to take care of your health and that of your loved ones with **effective and pioneering treatments**.

### TOMOSYNTHESIS

Mammography performed in 3D, which combines digital mammography with tomography, improving the detection of breast lesions.

### MICROFOAM, LASER AND CHIVA FOR VARICOSE VEINS

More advanced and complete treatment of venous insufficiency, both from inside the vessel and percutaneously.

### ENDOSCOPIC BARIATRIC TECHNIQUES

Metabolic or bariatric surgery for the treatment of obesity, including new, less invasive techniques.

### SURGERY FOR PARKINSON'S AND EPILEPSY

When medical treatment no longer controls the symptoms, intracranial surgeries for symptom control are included.

### THERAPEUTIC TARGETS

Study of genetic mutations that allow the administration of a specific drug, recommended when such an alteration occurs.

### ENTERORESONANCE

Resonance imaging of the intestine to view the walls in order to rule out malformations, inflammation and other injuries.

### INTRACRANIAL AND SPINAL SURGERY BY NEURONAVIGATORS

In intracranial and spinal surgery, it provides the surgeon with information about your anatomical situation during the operation.

## The largest medical team in the country.
